What the Govt desired to know was whether the allowance of Rs. 2 paid to the Jotis and Jalaris in the affected parts of the Chitaldrug Dist was not somewhat excessive. But the Rev. Commr. seems to have mistaken the point and asked the Dep.t Commr. to ~~point out~~ Explain why the relief should take the form of cash allowances in preference to daily distribution of grain. In explaining this point, however, the Dep.t Commr has also Explained

NOTE—Contn. sheet.

explained why the allowance was fixed at Rs. 2 per man per mensem. It was because, as was anticipated by the Financial Asst. Secy, the village servants could get nothing in the shape of emoluments and the full amount of the dependents' allowance had therefore to be given. They were accordingly given a daily dole of 12 chataks of ragi.

There does not seem to be much use of pursuing the subject further. The allowances have been already granted and the expenditure incurred. It will therefore have to be sanctioned. It may here be pointed out that it is not likely that similar expenditure will have to be incurred in the other Districts, as was once feared. No proposals have been received from any of them yet and as the conditions are rapidly improving everywhere, there is no chance of relief in this direction being required any more.

For the same reason it seems to be unnecessary to sanction the proposal of the D. C. to continue the allowance to the two of the present Official year. He may be asked to ship them with the

from which time also the grain compensation allowance ceases.

the end of May. To meet specially hard cases, the Dept C. has the choice of bringing the village servant on the village gratuitous relief register.

to village servants generally

Subject therefore to the condition that all relief shall cease with the end of May, the Rev. C. may be informed that Govt approve of the action of the D.C. in fixing ~~at~~ it at the rate of Rs. 2 and that the cost may be met, as proposed by him, out of the funds allotted for gratuitous relief.

(Br II may be consulted before this is done)

The sum to be paid depends upon the extent of land cultivated by each ryot and not upon the state of the crop. There is no doubt however that where the harvest is poor, the main village servants who at the best of times have great difficulty in getting their dues, will not receive much from the ryots. There is no doubt that the sum has been too liberal but under the circumstances
